INSTRUCTIONS FOR FORM J-1041 — FIDUCIARY RETURN

GENERAL

Every trust and estate, which had gross income from sources listed under "Taxable Income", must make and file a form J-1041, City of Jackson Income Tax Fiduciary Return, whether a tax is due or not. For the purposes of this tax, an estate or trust shall be treated as a non-resident individual and a tax rate of one-half of one percent shall apply on the earnings listed under "Taxable Income".

"Income from estates" means "Income" as defined in Sec. 643 (b) of the Federal Internal Revenue Code, properly paid, credited or distributed but not in excess of the resident individual's share of the distributable net income of the estate, decreased by the amount of depreciation or depletion allowed the resident individual as a deduction under Sec. 642 of the Federal Internal Revenue Code. The exceptions hereinafter set forth with respect to trusts are also applicable to income from estates. "Income from trusts" means the amount of "Income" as defined in Sec. 643 (b) of the Federal Internal Revenue Code, distributed or required to be distributed under Sec. 652 (a) or 662 (a) (1) of the Federal Internal Revenue Code, decreased by the amount of depreciation or depletion allowed the resident individual as a deduction by Sec. 642 of the Federal Internal Revenue Code.

TAXABLE INCOME

The only types of income taxable to an estate or trust are the following:

- (1) That portion of the net profits from the operation of a business or enterprise operated by the estate or trust that is attributable to business activity conducted in Jackson whether or not such business or enterprise is located in Jackson. For example, a business located out of Jackson that conducts business in Jackson would be taxable on the portion of its net profits properly allocable to such Jackson business activities.
- (2) Net profits from rentals from real and tangible personal property located in Jackson.
- (3) Net profits on the sale or exchange of real and tangible personal property located in Jackson.
- (4) Income from partnerships.

Other income, such as dividends and interest, are not taxable to trusts and estates. However, resident beneficiaries must report their distributive shares on Form J-1040.

INSTRUCTIONS FOR FILLING PAGE ONE OF FORM J-1041

Line 1 — The total net profit (or loss) is to be computed from page 1 of the Federal Income Tax Form 1041 by using those lines applicable to any business operation.

Lines 4 and 5 — Before completing these lines, fill out schedule A — Business Allocation Formula.

Line 10 — Jackson resident beneficiaries will report their portion of distributable net income on their individual returns and should receive this information from the Fiduciary. Therefore, this line, which is the resident's share of the Jackson income, should be subtracted from line 9 to arrive at the amount of Jackson income taxable to the trust or estate.

INSTRUCTIONS FOR BUSINESS ALLOCATION FORMULA — SCHEDULE A

The Business Allocation Percentage Formula is to be used by estates or trusts with business activity both within and without the City of Jackson who, because they do not maintain sufficient records to accurately reflect the net profits from operations conducted within the City of Jackson or for other reasons, are not using the separate accounting method.

Line 1 — Enter in column I the average net book value of all real and tangible personal property owned by the business, regardless of location; and in column II, show the net book value of the real and tangible personal property located in the City of Jackson. The average net book value of real and tangible personal property may be determined by adding the net book values at beginning of year and the net book values at the end of the year and dividing the sum thus obtained by 2. Any other method which will accurately reflect the average net book value for the year will also be permitted.

Line 1a — Enter in column I the gross rentals for the year multiplied by 8 for all rented property regardless of location. In column II show the gross rentals for the year multiplied by 8 for all rented property located in the City of Jackson. Gross rentals refer only to real property, rented or leased, and should include the actual sums of money or other consideration payable, directly or indirectly, by the taxpayer for the use or possession of such real property for the year.

Line 2 — Enter in column I the total compensation paid to all employees during the year and in column II show the amount of compensation paid to employees for work done or for services performed within the City of Jackson during the year.

Line 3 — Enter in column I the total gross receipts from all sales or services rendered during the year and in column II show the amount of receipts derived from sales made or services rendered in the City of Jackson during the year.

RESIDENT BENEFICIARIES' SHARES OF INCOME AND CREDITS — SCHEDULE B

The information for this schedule is to be taken from the comparable columns of Schedule C Form 1041 U.S. Fiduciary Income Tax Return. However only that information which applies to residents of the City of Jackson is to be shown herein. Fiduciaries shall report amounts in columns 4 and 8 to each resident beneficiary who will show these amounts as exclusions on the individual return J-1040.

TAX DUE OR REFUND

After computing your Jackson Income Tax, if the tax due is one dollar (\$1.00) or more it must be paid when filing this return. Stamps will not be acceptable as payments. Make check or money order payable to TREASURER — CITY OF JACKSON and mail with this return to Income Tax Division, City Hall, Jackson, Michigan 49201. Tax due of less than one dollar (\$1.00) need not be paid.

DECLARATION OF ESTIMATED TAX

Trust and estates are not required to file a Declaration of Estimated Income Tax.
